Выдержка из программы конференции OPTIMA2023

21 сентября 2023

September 21, 2023

Applications, chair Dmitry Malyshev

14:20 (UTC+2) Hasmik Sahakyan and Levon Aslanyan. Reconstruction of binary images from orthogonal and pair-based projections

14:40 Oleg Makarov and Elena Shchennikova. SImproving Background Subtraction Algorithms withShadow Detection

15:00 Boris Kupriyanov and Alexander Roschin. Limiting the search in brute force method forsubsets detection

15:20—15:40 Break

Applications, chair Dmitry Malyshev

15:40 (UTC+2) Valeriy Kalyagin and Ilya Kostylev. Graph density and uncertainty of graphical modelselection algorithms

16:00 Alexander Krylatov and Darya Kuznetsova. Swarm intelligence technique for capacity

optimization of a transportation network

16:20 Andrei Ignatov. Exact Algorithm for Generating H-Cores in Simplified Lattice-based Protein Model

16:40 Natalia Grigoreva. Optimal Cyclic Scheduling on Parallel Processors with Special Precedence

Наталья Григорьева Оптимальные циклические расписания на параллельных процессорах со специальными ограничениями
