**MENTAL HEALTH
IN A CHANGING WORLD**

Hosted by

**ARMENIAN
PSYCHIATRIC
ASSOCIATION**

**ARMENIAN
MEDICAL
ASSOCIATION**

Yerevan, Armenia

April 14-17, 2011

ARMENIA-MARRIOTT HOTEL

Dear Colleagues,

I am pleased to welcome your participation to World Psychiatric Association Regional Meeting in the Republic of Armenia.

To date, in Armenia, as well as in many other countries, mental health is still one of the challenging areas of public health. Despite of health reforms that followed independency declaration, mental health treatment approaches are far from contemporary trends and are affected with post-soviet health system crises. Unfortunately, mental health patients are still stigmatized on the basis of personal characteristics and ignored in their communities.

During last half year the Psychiatric Services Strategic Plan was drafted to address the challenges of our mental health system. The Strategic Plan is centralized to enhance outpatient care and move toward deinstitutionalization of mental health services. Armenian Psychiatric Association is a vital organization and in the forefront of the Psychiatric Services Strategic Plan.

I strongly believe that the Regional Meeting will give us an opportunity to discuss various scientific and organizational topics, exchange knowledge and experience, and will positively impact the development of mental health area not only in Armenia but also in the region.

I wish to express my appreciation to the administration of World Psychiatric Association for this significant initiative and for bringing this remarkable event to Armenia. I hope that along with sound scientific program your visit will be a unique cultural experience.

Harutyun Qushkyan
RA MINISTER OF HEALTH

Dear Colleagues,

I am happy to invite you to participate in the WPA Regional Meeting to be held in Yerevan, Armenia, from 14 to 17 April, 2011.

We are living in a world which is changing dramatically, where a variety of new challenges are emerging for our mental health and several factors which used to facilitate our coping with adversities are becoming less effective. We psychiatrists cannot ignore these changes and the ways they are affecting the epidemiology, phenomenology and treatment response of several mental disorders.

The transition period which several Eastern European countries are undergoing, with its impact on the mental health of the population, is a good example from which we can take several lessons.

This WPA Regional Meeting will give visibility to the experience of colleagues from Eastern Europe and, at the same time, review the impact of sociocultural and economic changes and their implications for psychiatric practice, research and services in several other areas of the world.

Armenia, an important bridge between East and West and a fascinating country, rich of culture, natural beauties and vibrant humanity, will be an excellent location for the event.

I look forward to meeting you in Yerevan.

A handwritten signature in black ink, consisting of a stylized 'm' followed by a horizontal line and a vertical stroke.

Mario Maj

President, World Psychiatric Association

Dear Colleagues,

You are cordially invited to participate in the WPA Regional Meeting to be held in Yerevan, Armenia, from April 14 to 17, 2011. The meeting is devoted to mental health challenges in the present era of globalization.

We value the participation of mental health professionals from regional and global networks. It is a great pleasure to host an international conference on recent advances in research, education and treatment of mental disorders relevant to practicing psychiatrists in multicultural settings.

The conference highly appreciates the exchange of academic knowledge and experience, as well as the opportunity for networking and collaboration among professionals from different countries. It aims to be a ground for open discussions that will contribute to the development of new initiatives and programs.

Don't miss the opportunity to visit the cultural heritage of one of the world's ancient civilizations, enjoy mountainous landscapes and experience Armenian hospitality!

We look forward to meeting you in Yerevan.
