

We certify that

ANTONY ZHILKIN

participated in Model European Union Strasbourg 2021 in the role of

MEMBER OF THE EUROPEAN PARLIAMENT

Model European Union Strasbourg is one of the longest-running simulations of EU decision-making and has traditionally taken place at the official seat of the European Parliament in Strasbourg every year since 2006, gathering roughly 200 young students and professionals.

Model European Union Strasbourg 2021 took place online across two weekends (September 24-26 and October 2-3) and consisted of approximately 30 hours of simulation activities and three weeks of workshops and intense preparations leading up to the conference. All Members of Parliament were required to actively participate in simulation debate and submit detailed position papers for their role on both of the EU legislative proposals debated at the conference: a Regulation establishing the Just Transition Fund and a Regulation preventing the dissemination of Terrorist Content Online.
